

## Press Release December 2007

### Hybrid Energy....Spectra International Sales Dealer of the Year 2007

Hybrid Energy in its first full year of distributing the Spectra brand of watermakers has been honored with Spectra's 2007 International Sales Dealer of the Year.

This recognition was a complete surprise to the Hybrid Energy team and a very welcome acknowledgment of all the hard work done in 2007.

Bob Wisniewski Managing Director stated: "When Hybrid Energy were appointed the new Australian Dealer in mid 2006 our goal was to build the reputation of the most energy efficient DC watermaker in the world, through strong sales and even stronger service and support for the product" - "With our appointed factory trained dealers around the country supporting the product in their regions, these efforts have seen substantial growth of Spectra around the country over the last twelve months".

Hybrid Energy would like to thank all of its customers and dealers who have purchased and installed a Spectra Watermaker and we look forward to 2008 and beyond where we have the opportunity to defend our position as International Sales Dealer of the Year.
